

Hello FCCLA! My name is Aaron Hool and I am from Butler Tech/Talawanda High School and service as your Vice President of Publications. I have a true passion for FCCLA and want to do all I can to help this organization grow into something great.

Contrary to what you may think, I am still pretty green to the organization due to the fact that I only became a member LAST SEPTEMBER! On top of that, I didn't get involved until after the 2016 National Cluster Meeting in Orlando Florida. It was at that meeting I decided to get more involved.

Outside of FCCLA, I spend most of my time between school, work, the gym, sports and riding motorcycles. I am on the varsity golf, swimming, and lacrosse teams. Sports keep me busy. I work as a jeweler at a local artist's shop where we produce some of the coolest jewelry. Most people know me as a total adrenaline junky and love doing all kinds of outlandish activities.
